North Dakota Lottery's Newest Way to Win \$1 Million

Bismarck - Beginning September 14, North Dakota lottery players have another way to win one million dollars. When a player purchases Mega Millions® with Megaplier and matches all five white numbers, they will be an instant millionaire. Previously, the only way to win a million was to match all five white numbers if the Megaplier was 4.

Megaplier will continue to be offered on all other non-jackpot prizes, allowing winnings to be multiplied two to four times. When a player with Megaplier matches all five white numbers, they will win one million dollars, no matter what the multiplier is. The price of a Mega Millions ticket remains unchanged at \$1 per play with an extra \$1 per play to add Megaplier. The jackpot starts at \$12 million and keeps growing until a player wins.

“Players focus on the size of the jackpot. Now, even if they don’t take home the grand prize, they have a chance to match five and win a million,” said Lottery Director Randy Miller. To play Mega Millions, players pick five numbers from 1 to 56 and a Mega Ball from 1 to 46. Mega Millions drawings are held every Tuesday and Friday at 10 p.m. Central Time.

For more information on Mega Millions, visit the Lottery’s website at www.lottery.nd.gov. Winning numbers are posted on the Lottery’s website or can be checked by call the winning numbers hotline at 701-328-1111.
